

NAME: Informatics Inc.

ADDRESS: California: Sherman Oaks (Hdqtrs.), Palo Alto, Pt. Mugu
Washington, D.C. (Eastern Regional Office)
New York: Rome, Poughkeepsie
Texas: Houston
Europe: Amsterdam Schiphol Airport, the Netherlands.

OBJECTIVES: To be your software expert. To help you with programming and systems analysis. To act as a supplement to your staff. Or to tackle some of your tough, challenging problems.

AGE: 3 years

EDUCATION: 567 years of college. 105 BS, 15 MS, 3 PhD degrees.

MILITARY EXPERIENCE: On active service for USAF, USN, US Army, USMC

MARITAL STATUS: Wholly owned subsidiary of Data Products Corporation

PROFESSIONAL EXPERIENCE: Informatics Inc.'s staff experience covers almost every conceivable type of computer system and application explored to the ultimate extensions of the state of the art. A highly competent technical staff provides sophisticated, user-oriented systems analysis and programming services for a broad range of clientele.

Of particular interest is our unusual competence in on-line, real-time systems. Here we offer unusually broad credentials in such applications as spacecraft checkout, missile range data handling, system monitor and control, and display interrogation for military command and control.
